

Challenge archive: Google CTF 2024 - McEliece

deuterium — Event date: 2024-06-21

Challenge event began 2024-06-21; article publication date not recorded.

Canonical HTML: <https://deut-erium.github.io/challenges/google-ctf-2024/mceliece/>

Abstract

Google CTF 2024 - Cryptography.

By deuterium.

Original description

McEliece cryptosystem was developed in 1978 and has resisted cryptanalysis so far. Lets make allies with better error correcting codes which may call ease on the sizes of keys.

NOTE: The .sobj files were generated using Sage 10.4. It should be fine to use Sage 9.7 or onwards to parse the files.
