

Challenge archive: SekaiCTF 2024 - Some Trick

deuterium — Event date: 2024-08-23

Challenge event began 2024-08-23; article publication date not recorded.

Canonical HTML: <https://deut-erium.github.io/challenges/sekaictf-2024/some-trick/>

Abstract

SekaiCTF 2024 - Cryptography.

By deut-erium.

Original description

Bob and Alice found a futuristic version of openssl and replaced all their needs for doofy wellmen.

Read this challenge as plain text or JSON.

Files

- [sometrick.py](#)
- [Fixed instance \(output.txt\)](#)

Keep the version banner and all three messages in output.txt. The original program only prints these messages; it does not ask for input.

This fixed output was generated for the post with the unchanged original program and event flag. It is not a recording from the competition.

Download

```
mkdir -p sekaictf-2024-some-trick
cd sekaictf-2024-some-trick
curl --fail --location --output challenge.txt \
