Abstract

zh3r0 CTF 2021 - Cryptography.

By deuterium.

Original description

Wise men once said, “Well, shake it up, baby, now Twist and shout come on and work it on out” I obliged, now the flag is as twisted as my sense of humour

Read this challenge as [plain text](#) or [JSON](#).

Files

- [challenge.py](#)
- [Fixed instance \(output.txt\)](#)

Use all 624 lines in output.txt with the original source. The Untwist Me practice variant has its own output and flag.

This fixed output was generated for the post with the unchanged original program and event flag. It is not a recording from the competition.

[Try the local practice variant](#). Its flag check is separate from this event challenge.
