Abstract

Trying out randoblurry, published in Ramblings.

Interaction with a friend about randoblurry

Trying out the idea of randoblurry

Excited to play the new game I created, I asked a friend of mine if it seems reasonable. Let's call her "Z" and me "D".

Z: This doesn't appear to be much fun.

D: Try out giving me some 4 random words of your choice.

Z: Alright.

Z: Fetish random obligatory meaningless

D: Z's *obligatory* response to trigger word *fetish* of D might seem *meaningless* to some, but to him it's his daily source of entertainment.

Z: Oh it was nice!

D: I know right!?

Z: Wait, I'll read your blog again.

D: Sure, just imagine you will keep on giving 4 random words and I have to connect/extend the story with the context.

D: I feel the words I am getting by my approach in blog are kinda non-sensical to produce something meaningful.

Z: Gotcha, here you go with your words.

Z: derogatory pathway software wall

D: I can feel a *derogatory* wall between us, which is still blocking our *pathway* to communicate in a language of *poetry* called *software*.

Z: Oooooo.. How about inclusion, rarefraction, supersonic, behavioral

D: I bet you have a physics book in your hand.

Z: Yeah felt like studying but now I feel overdosed on caffeine.

D: Her brain is running at such *supersonic* speeds that I can observe a *rarefraction* of her thoughts, void of *behavioral inclusion*

Z: Nice!. Aggravate punish behold superior.

D: "*Behold the superior Z!*", to *punish* her books, she proclaimed on the last gulp of black coffee, little did she know how it will *aggravate* her perception.

Z: Damn it!

D: These are not random enough :P

Z: Abrogated exhort flagrant cupidity

D: She considered her words random enough, only to be *abrogated* by D's linking ability which he uses as a *fragrant* cologne to *exhort* her *cupidity*

Z: Probity, spurious, wily, fetter

Z: Oh wait, hey it was flagrant!

D: That's how you plant to *fetter* his *wily* responses? Him missing a spelling should no way be considered *spurious* as he can still justify his *probity* by his *flagrant* capability to include words on the fly

Z: I am a fan already. Go with travesty, vociferous, iconoclast, largess

D: A *travesty* of Sassy Tharoor, whose vocabulary is actually her *largess*, this *vociferous* lad is a born grammatical *iconoclast*.

Z: Relegate, beguile, evanescent, maelstorm

D: Hmmmmm

D: He *relegates* her hard found words to *beguile* her into producing yet another set of *evanescent* words. Can she in any way stop this furious *maelstorm* growing hungry with each word fed?

Z: Oh lord you win, enough for today!
